“ Streamline assay development with a partner who masters IVD from concept to market ”

PROVIDE FLEXIBLE SERVICES FOR IVD ASSAY DEVELOPMENT

HalioDx provides flexible services for IVD assay development for companies in the diagnostics and pharma industries, for technology providers and for clinical labs.

Our offer is an integrated approach to IVD markets, not limited to contract development, manufacturing, life cycle management, commercialization but also including integrated quality management system and medical & regulatory affairs support.

MODULAR & CUSTOMISABLE MADE-TO-MEASURE PROJECTS

SIGNIFICANT TRACK RECORD OF ASSAY DEVELOPMENT

- Several products launched since 2015
- Ongoing IVD contract development projects with multiple partners
- Global partnerships (US, Europe, Asia)

- PMA & 510(k), CE- IVD, RUO, CTA, CDx development
- Multisite collaboration
- Access to patient samples
- Multi technology development (NGS, qPCR, IHC etc...)
- Development under HalioDx Design Control SOP or third-party Design Control SOP
- Design control compliant with new European regulation

HalioDx is ISO 13485 & ISO 9001 certified and 21 CFR part 820 compliant to support IVD commercialization under your brand.
